**THE CITY OF ROCKWELL, Iowa,** utilized the skills and experience of Heartland Asphalt for a multi-faceted main street improvement project to enhance the look of their downtown.

The \$200,000 project began with new PCC sidewalks, curb and gutters, while maintaining access to the main street businesses. After the concrete work was complete, the existing asphalt street surface was milled off to bring it to grade. The surface was then leveled and a 3-inch asphalt base was placed to fill the area between the old street and the new curb and gutter. The entire width of the street was then overlaid with a 1-1/2-inch asphalt mat.

“...Heartland was very cooperative and helpful in this project. The city is very pleased.”
