*DID YOU KNOW?*  
Heartland was awarded five out of the twelve Smoothness Awards for the State of Iowa for 2005.

**WAVERLY, IOWA'S** 39th Street S.E., a typical rural township roadway, needed upgrading to serve a new residential development. Heartland Asphalt was hired to grade and install a half-mile of new paving. Hot Mix Asphalt was the material of choice because of its economical cost and the ability to maintain access during construction.

The rural section was designed with a 24-foot roadway and paved 6-foot shoulders. Heartland utilized an 18-foot wide extendable screed so paving could be laid in just two passes, resulting in just a single center line joint. The urban section of the project also included curb and gutter work.

This project earned Heartland the Asphalt Paving Association of Iowa's Smoothness Award in the municipal street paving category.

**"...Heartland's attention to quality was at the heart of an excellent job..."**
