OUR CAPABILITIES INCLUDE DESIGN LAYOUT, EXCAVATION, BASE PREPARATION, CONSTRUCTION OF NEW PAVEMENTS, AS WELL AS, REHABILITATION AND MAINTENANCE OF EXISTING PAVEMENTS.

DID YOU KNOW?
Asphalt is very economical for both heavy and light duty paving applications.

MILLS FLEET FARM, with two dozen outlets scattered across the Upper Midwest, is a major player in mass retailing in its trade territory. Their decision to open a large, full service retail facility in Mason City presented Heartland Asphalt with the opportunity to successfully handle their biggest commercial project to date. Widseth, Smith, Nolting of Baxter, Minnesota was the architect.

This was a project that required more than 13 acres, in fact, a total of 64,525 square yards of paving.

Heavy duty paving of the main drives and material yard involved a 4" ACC mat over an 8" rock base. The light duty parking lot areas consisted of a 3" ACC mat over a 6" rock base. All in all, Heartland placed more than 35,000 tons of base rock and 13,000 tons of hot mix asphalt to complete this \$1.1 million dollar project.

"...Heartland was a good outfit to work with..."

Mike Fish
On-Site Project Engineer
Widseth, Smith, Nolting
