DID YOU KNOW?
Asphalt is increasingly becoming the pavement of choice for heavy duty applications

THE FLOYD CONVENIENCE STORE serves more than 100 trucks each day, and Heartland Asphalt's expertise has successfully placed their product in scores of heavy duty applications such as this.

Point Builders, Inc., of Charles City, Iowa, was the general contractor for this convenience store/truck stop located at the busy intersection with new Highway 18 in the City of Floyd.

This 3,200 square yard drive and parking lot surfacing was an on-demand job. The project could not be started until the work on the store and fuel systems were done, and needed to be quickly completed for the facility's opening.

Beginning with a new earth fill area, Heartland placed a 6-inch ACC surfacing over a 6-inch rock base, and completed the project on schedule, as promised.

Van Winkle-Jacob Engineering of Cedar Falls, was the project architect.

"...as always when Heartland is a member of our team, they perform above expectations..."
Pat Crawford
